

# NEOPRENE FOAM SHEET

---

## Short Description

High-quality Neoprene Foam Sheet designed for sealing, insulation, cushioning, and vibration damping applications. Offers excellent resistance to water, weathering, oils, and moderate chemicals, making it suitable for industrial and commercial use.

## Product Overview

Neoprene Foam Sheet is a closed-cell elastomeric material known for its flexibility, durability, and resistance properties. It is widely used in HVAC, automotive, construction, marine, and general engineering applications. The material provides effective thermal insulation, sound dampening, and sealing performance.

Manufactured with precision by Canco Fasteners, the product is available for OEM supply, distributors, and export markets.

## Quick Specifications

- Material
  - Neoprene (Chloroprene Rubber)
- Density Options
  - 80 – 200 kg/m<sup>3</sup> (custom densities available)
- Thickness Range
  - 3 mm to 50 mm (custom thickness available)
- Sheet Size
  - Standard and custom sizes available as per requirement
- Surface Options
  - Plain
  - Single-side adhesive
  - Double-side adhesive
- Color Options
  - Black (standard)
  - Custom colors on request

## Technical Specification Sheet

### Product Description

Closed-cell Neoprene foam sheet suitable for sealing, insulation, gasketing, and cushioning applications.

### Key Properties

- Excellent water and weather resistance
- Good thermal insulation
- Vibration and sound dampening
- Resistant to oils and moderate chemicals
- Flexible and durable

### Manufacturing Process

- Rubber compounding
- Foam expansion process
- Sheet cutting and finishing
- Adhesive coating (if required)

### Dimensional Control

Manufactured within specified tolerances as per customer requirements and industry standards.

### Testing & Inspection

- Density testing
- Thickness measurement
- Hardness testing
- Visual inspection
- Adhesion testing (for adhesive variants)

## Typical Applications

- HVAC insulation
- Gasket and sealing applications
- Automotive padding and insulation
- Construction joints and gap filling
- Electrical insulation
- Packaging and cushioning

## Export & Packaging

Available in:

- Rolls
- Cut sheets
- Custom die-cut shapes
- Bulk export packaging
- Private-label packaging

Canco Fasteners manufactures Neoprene Foam Sheets as per customer specifications and industry standards. Products are available for OEM programs, distributor supply, and export markets.
